Subject: RE: US CO Site data integration project: Go-live 18th Aug

Hemla – I remember your first SteerCo that you led and I immediately noticed your strong understanding of "the why" and your ability to command attention from your SteerCo. You were able to simplify complex problems and instill trust that the project team was handling the issues and risks properly. I was always impressed with your leadership on the project and I have told [redacted] many times that I would like to work with you again in a future project.
